Let's take a step back in time

Dementia Pathway Team

Our aim:

Work with people from diagnosis and signpost to local support services

Pilot new activities to engage people living with dementia, creating partnerships with community organisation's

Blakenhall Healthy Living Centre

All Saints Community Allotment

Wolverhampton Wanderers FC

Wolverhampton Ring and Ride

Wolverhampton Special Care Dental Service

The Wolverhampton Special Care Dental Service (WSCDS) is a unique service that provides dental care and treatment for special care patients including vulnerable and hard-to-reach groups in the area.

Our Journey

Agreed free dental checks to be made available to those supported on Meadow Ward

Extended the service to make it available to those supported on all three wards at Penn Hospital

Review of the level of engagement with the service, taking into account patient feedback and also the number of people who required referral for treatment

Developed the processes and procedures involved with making available a mobile treatment unit to those supported on the wards and launched the service.

Ongoing review implemented to fine tune the service delivery and extend the provision to those supported in the community

Thank You
