# Domestic Violence Update

# Domestic Abuse Update

**2021 DA Bill**

Police recorded 259,324 domestic abuse offences between March and June - 7% up on 2019.

**DAPO's**

Charges and cautions for domestic violence rise by 24% in London

**Increased powers to use Electronic monitoring**

25% violent encounters happen away from the home

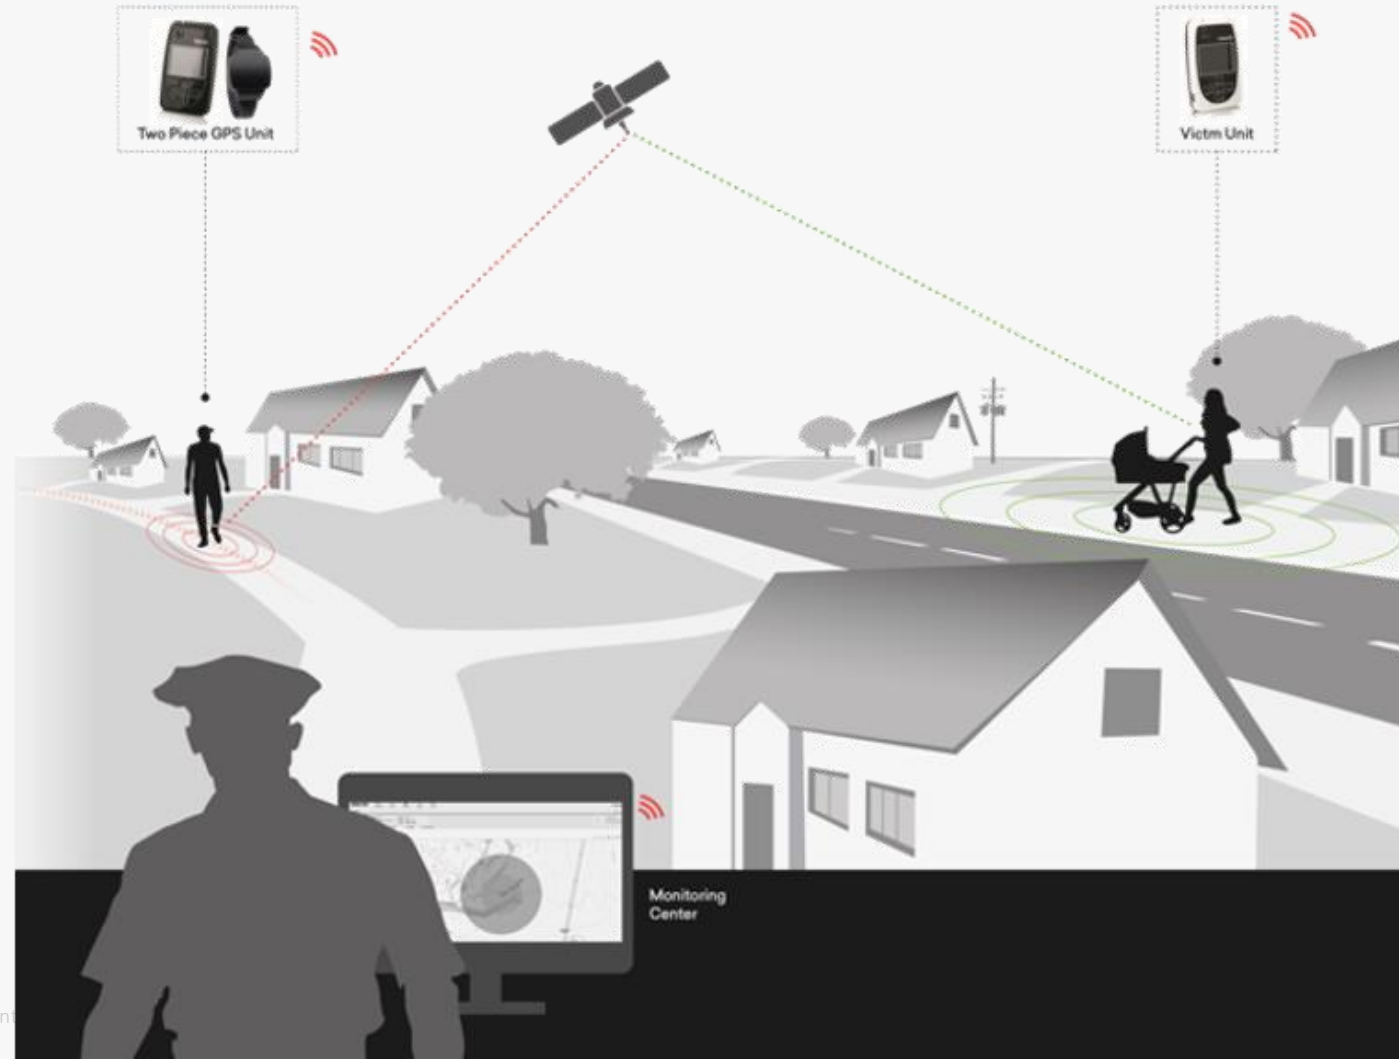

# Attenti Bi-lateral GPS monitoring

**Video goes here**

# DA Tracking Concept

## Bilateral Electronic Monitoring: Operational Concept

- ▶ **Real time tracking** of perpetrators location according to both pre-defined zones and proximity to the survivor
- ▶ **Multiple security layers** around the survivor while at home and on the move
- ▶ **Constant supervision** at the Monitoring Centre
  - Communicates with perpetrator and/or survivor
  - Distributes automatic and manual alerts
  - Executes escalation in case of violations
  - Store's perpetrators compliance data

# Domestic Violence Deterrence System

## Key Features

### Dynamic & fixed geo-zones

Configured according to the imposed restraining order

### RF/GPS Proximity alerts

Immediate notifications sent to the monitoring centre, aggressor and victim if the aggressor has entered, or is nearing, a restricted area

### Audible and visual alarms

If the aggressor approaches, the victim's GPS unit provides audible and visual indications for the victim to take necessary precautions

### Panic Button

The victim unit turns into an emergency phone to the monitoring center and predefined contacts

### Tamper protected solution

Multiple detection mechanisms on the aggressor's GPS unit and the body-worn transmitter provide evidence of tamper attempts

# Snapshot of Attenti Domestic Violence Programmes (Bi-lateral)

SPAIN	PORTUGAL	URUGUAY	ARGENTINA	GEORGIA
 <p>Ownership: Ministry of Equality</p> <p>First country in the world to operate a bilateral EM program for DV (2009)</p>	 <p>Ownership: Ministry of Justice</p> <p>A nation-wide program was initiated with a bilateral EM program for DV (2009)</p>	 <p>Ownership: Ministry of Interior</p> <p>First country in LATAM to operate a bilateral EM program for DV (2013).</p>	 <p>Ownership: Ministry of Public Security</p> <p>A federal and state level bilateral EM DV program, across the country (2017).</p>	 <p>Ownership: Ministry of Internal Affairs</p> <p>The first DV project in CIS (awarded 2018. start operation 9/2020). Sponsored by UN Women</p>

 <p>Ownership: Ministry of Justice</p> <p>Bilateral DV, part of comprehensive EM program with MOJ (2015).</p>	 <p>Ownership: Ministry of Justice</p> <p>Small bilateral DV program, supplementary to EM program with MOJ (2019).</p>	 <p>Ownership: Ministry of Interior</p> <p>Tender awarded 8/2020. pending implementation Sponsored by UN Women</p>	 <p>Ownership: Government states</p> <p>Bilateral programs operating in two government states since mid 2020.</p>

# European Case Study

## In Numbers -2019

**11500**

Total number of perpetrators and victims monitored

**2200**

Number of individuals monitored simultaneously

**597**

Number of uses of the panic button by victims

**500**

Number of offenders returned to prison

**91%**

Participating victims feeling safe, or safer

**73%**

Would recommend the measure

**65%**

of perpetrators believe the system has helped them meet their legal obligations

# UK Police Pilot activities

# Deployment models

## Light touch

- Lower risk cases
- Police monitored
- Alerts to survivor device turned on
- Data reviewed retrospectively by police
- Voluntary or mandatory

## Higher risk with reaction plan

- High risk cases
- Monitoring centre or police Control centre monitored
- Alerts to survivor device on or off
- 24/7 monitoring and response
- Mandatory

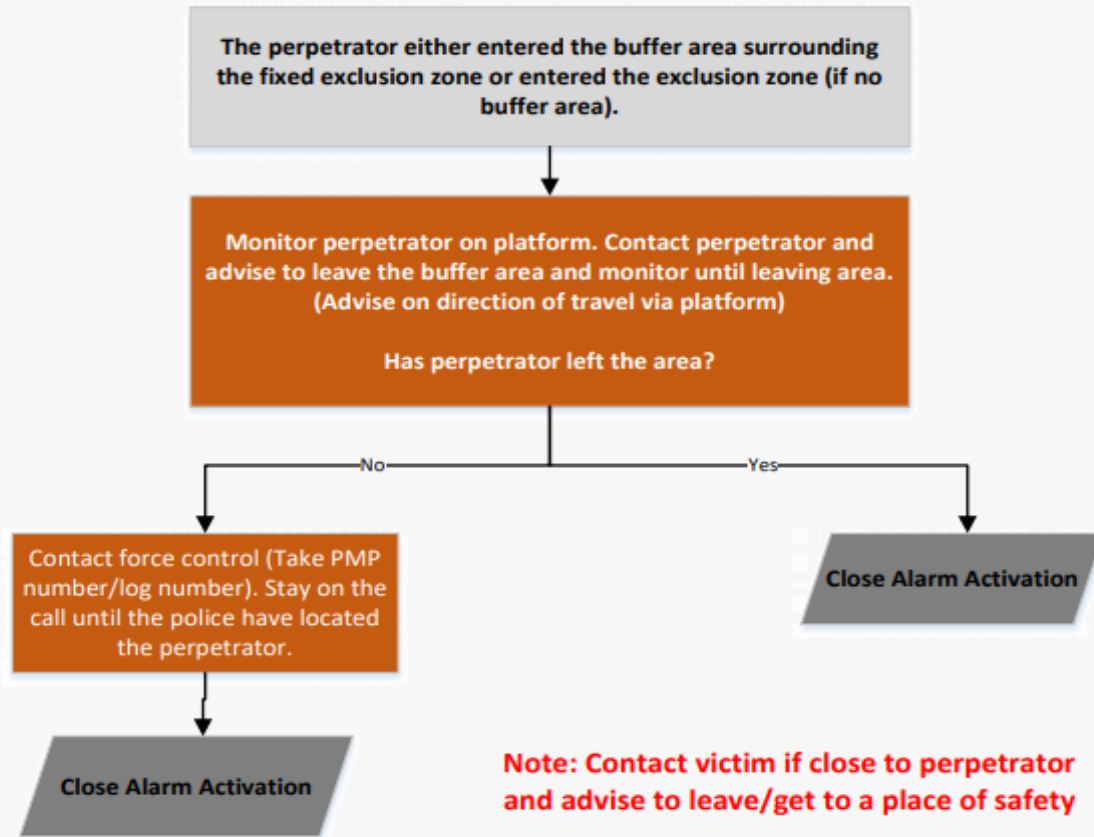

# UK Pilot Update

# DA / Stalking UK Pilot Overview

Cougar Monitoring Reaction Plan – Domestic Violence Monitoring

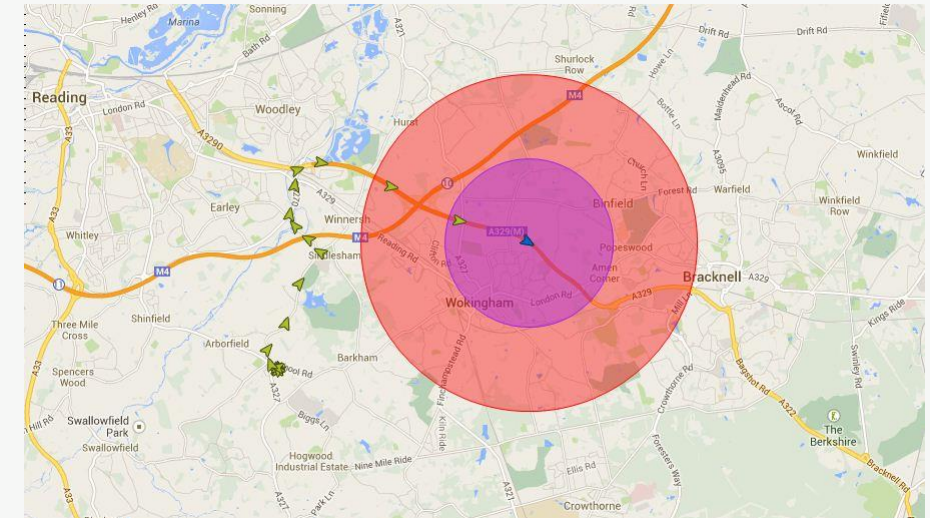

**Note: Contact victim if close to perpetrator and advise to leave/get to a place of safety**

- Attenti & Cougar Monitoring providing dedicated 24/7 service to West Midlands Police
- Currently voluntary
- Targeting high risk cases in Coventry area

# Pilot aims

- To reduce reoffending
- Reduce demand on policing.
- Providing transparency, or patterns of offending
- Increase safety of survivors.
- Provide evidence of license / DVPO (Domestic Abuse Protection Order / other related geographical location restriction breaches
- To support police managing a live domestic abuse incident with location and situational input
- To leverage any operational improvement gains
- Provide useful data insights around crime mapping, and prepare investigative and evidential packs as required

**attenti**  
giving **you**  
peace-of-mind

# Thank you!
