

University of
Southampton

Delivering the pathway to safe, high-quality maternity and maternity care 2022

Welcome address

Dr Ellen Kitson-Reynolds

10 February 2022

WELCOME

...a continued devotion to enhancing safe, high quality care for women and their families around the globe...

The future workforce...

Ockenden Review:
First Report Sets Out
Key Themes and
Learning Points for NHS
Maternity Services

- Trained to the new 6 Domains (NMC, 2019)
- Midwives revalidated to these standards
- Work in collaboration with those who come in contact with maternity services

Pilot

- University of Southampton with University Hospitals Southampton NHS Trust pilot for all student midwives to experience Continuity of Carer
- Nurture the passion, enthusiasm and want, to enhance outcomes for all who access maternity services

What about the future?

- Accountable, autonomous, professional [domain 1]
- Continuity of carer [domain 2]
- Concerns about the ability to continuously provide high quality universal and additional care needs [domain 3 and 4]
- Anxiety - Strength based approach to keep going through the tough times [domain 5]
- Skills to safely do the role [domain 6]
