# Tackling Online Violence Against Women and Image-Based Abuse

Women and girls face very distinct and increased risks online

1 in 3 UK women have experienced online abuse or harassment on social media

4 in 5 online grooming crimes target girls

97% child abuse material features sexual abuse of girls

Criminal offences and legislation alone won't solve this problem

We are in the middle of a crisis of confidence in policing, a broken criminal justice system with the odds stacked against victims and we need investment in prevention

Through education and public campaigns and the requirement upon tech companies to use software to identify, prevent and address the abuse
